

MY WEEKEND

You must be busy with numerous activities throughout the week, do you have the time to make any weekend plans at all?

Yes, I do find the time to make weekend plans.

Do your weekend plans match with that of His Excellency Viren J Shah?

new look. Did you spend weekends beautifying the place?

I did have to work on some weekends. Painters, carpenters and masons had to be supervised.

How would you normally spend a weekend in Kolkata?

Anjana Shah,
First lady of West Bengal

Do you preserve your weekends for carrying out your social commitments?
No. There is nothing like preserving weekends. If something comes up I usually accept.

Any special plans for this weekend?

I am looking forward to this weekend because I will be spending time with my darling granddaughters and my loving husband in the hills.
